ZEESHAN BEG

New Delhi, Delhi | zeeshanbeg2004@gmail.com | +91 9068539214 | https://dracula74644.github.io

I am an aspiring cybersecurity enthusiast passionate about web application penetration testing, programming, and Linux administration. I am skilled in using tools like Burp Suite, OWASP ZAP, and Nmap. Proficient in Python and basic web development. Possesses a basic understanding of AWS, Seeking to leverage skills and knowledge to contribute to a dynamic team and grow as a cybersecurity professional.

WORK EXPERIENCE

Security Analyst
GICSEH Security Pvt. Ltd, Delhi

August 2022 - Present

Key Qualifications & Responsibilities

- Performed website and mobile penetration testing using a wide range of tools including Burpsuite, Nmap, Postman, Wireshark, Sqlmap, FFUF, and more.
- Conducted Vulnerability Assessment and Penetration Testing (VAPT) on web applications and mobile applications for prominent clients such as FirstCry, Achmea etc.
- Utilized a diverse toolset including Burpsuite, PostMan, OWASP ZAP, SQLMap, Dirb, Genymotion, and others for comprehensive testing and analysis.
- Conducted website penetration testing for internal web domains using Burp suite, FFUF, WpScan, and automation scripts.
- Utilized Linux tools alongside other pentesting tools for network penetration testing, including Nmap, Nessus, Metasploit, and more.
- Demonstrated a proven track record in safeguarding digital assets through meticulous testing and fortification measures.

SKILLS

- Kali Linux hands-on
- Web Penetration Testing
- Owasp Top 10

- Vulnerability Assessment
- Source Code Reviewing
- API Penetration Testing
- Network Penetration Testing

- Amazon Web Services
- Normal Web Languages
- Shell Scripting
- Version Control System (Git)

EDUCATION

Bachelor of Computer Application | Delhi
Indira Gandhi National Open University
IGNOU, Delhi

January 2021 - Present

Cyber Security Diploma | New Delhi
Global Institute Of Cyber Security And Ethical Hacking

September 2021 - September 2022

- Studied various aspects of cyber security including penetration testing, vulnerability assessment, and ethical hacking.
- Acquired skills in using security tools such as Burp Suite, Nmap, and Metasploit.
- Developed knowledge of security compliance frameworks such as PCI-DSS and ISO 27001.
- Completed a final project on web application penetration testing, which involved identifying and exploiting vulnerabilities in a web application.

PROJECTS

Keylogger
Developed a keylogger in Python to gain insight into user activity and improve security measures for personal and professional use.

Chatting Program
Developed a chat program in Python using socket library for real-time communication between multiple clients and server in your local network.

TOOLS

- Nmap
- BurpSuite
- Wireshark
- POSTMAN
- Metasploit
- Owasp zap

HOBBIES

- Capture The Flag (CTF Player)
- Learning about New Technologies
- Working on Projects
- Travelling
- Researching On New Things
